FELTECH KNOWS THE TRUE VALUE OF ITS HERITAGE

Projects included providing broadcast television engineering services for the meetings for the European Council which included the Yugoslavian Peace Summit in London, the Special Council Meeting in Birmingham and finally the Edinburgh Summit in December. The company also supplied and installed video edit suites for the Gardener's World TV series; press and television briefing facilities for the

By the time you read this, Peter Brook - Secretary of State for the recently formed Department of National Heritage - will be sitting in his new office in Cockspur Street, just off Trafalgar Square. The pictures on his television set, along with 40 other offices in the seven storey building, are fed via a television and satellite receiving system that amplifies and distributes the signals throughout the entire building. This system was recently installed by Feltech Electronics Ltd.

Feltech Electronics Ltd specialise in professional video systems engineering. This encompasses systems design, installation and commissioning, together with equipment sales servicing and repairs.

During 1992, Feltech Electronics Ltd received many diverse commissions from its impressive client list.

Department of Education; a complete remote controlled presentation facility for Northern Telecom; a 98 monitor videowall controller with 7 laserdisc players for Expo 92; a CCTV surveillance system for the Piper Heidsieck champagne cellar in Reims - and the list goes on!

To date 1993 has been very eventful for Feltech Electronics Ltd with another video wall project, this time for the Geneva Motor Show launch of the new Ford Mondeo. We have also just completed press and television facilities for the Home Office.

Feltech Electronics Ltd have a fully equipped repair workshop and also carry a wide range of video tape stock including Betacam SP U-matic formats and S-VHS/VHS.

Contact Steve Watson - Sales Manager, on 0727 834888.
